

# Lovibond<sup>®</sup> Colour Measurement Tintometer<sup>®</sup> Group

## OnColor Lite

Colour QC Software with Pass/Fail Tolerancing for Fast Answers

- Simple to Use but still Provides You with Tools for Basic Colour Checks
- Comprehensive & Easy-To-Learn GUI Compatible with all Current Windows<sup>™</sup> Operating Systems
- Colour Plot to Report Colour Difference and Pass/Fail Assessment
- Compatible with and Easy to Upgrade to OnColor<sup>™</sup> Premium

Part Number: 400590

### Open Platform Software Package

OnColor<sup>™</sup> doesn't tie you in. This Open Platform Software Package works on any of the off-the-shelf spectrophotometers that are currently available from all currently active suppliers and legacy systems.

### Start Small, Grow Big

OnColor<sup>™</sup> Lite is an affordable entry-level colour quality control package that works with most spectrophotometers and is compatible with Windows<sup>®</sup>. It is compatible with and easy to Upgrade to OnColor<sup>™</sup> Premium.

### Wide Range of Functions

OnColor<sup>™</sup> Lite offers a wide range of functions and graphical displays for the evaluation and control of colour, including instrument control, colorimetric and spectral data, colour tolerancing, reporting and archiving of data.

### Versatility of Instrument Choice

OnColor<sup>™</sup> is available for all spectrophotometers from handheld, portable instruments, such as our RT portable and bench top instruments. It is equally as suited to quick, portable readings as to the demanded accuracy of high-end solutions.

### Flexibility

The software can either be used out-of-the-box with pre-programmed screen displays or, alternatively, you can customize it and tailor it to your needs with templates provided by the Property Files.

### Correlation of Data

Job Tags and Workspaces allow for correlation of data to specific manufacturing processes.

### Easy-To-Use

Navigation aids help speed you through the software with hot keys, shortcut keys, tool tips and right click menu.

## Industry

Chemical Industry | Food and Beverage Industry | Industries Others | Oil and Gas | Pharmaceutical Industry

## Application

Chemicals | Coatings | Household Products | Plastics | Textiles

## OnColor Lite

An affordable entry-level colour Quality Control package that works with many of our spectrophotometers, it offers a wide range of functions and graphical displays for the evaluation and control of colour including: instrument control; colorimetric and spectral data; colour tolerancing; reporting and archiving of data.
