# WEATHEX

■ RADIATION SHIELD

WxRS-150

The **WxRS-150** provides protection for temperature and humidity sensors by shielding them from external air. The sensors are doubly protected to minimize the impact of weather phenomena such as radiation and precipitation. It ensures that there is no temperature variation caused by aerosols or raindrops. (The fan is optional.)

Specifications

Material	ABS, Thermoplastic
Size	Diameter : 170mm, Height : 250mm
Weight	1.5kg
Fan(for air circulation)	4300RPM, IP68
Fan speed detection	Frequency output
Fan power	+12V
